SAT and ACT Test Preparation - Why Prepare at The Tutor Studio?

1. Real Test Questions

The most unique thing about our program is that we use real SAT and ACT questions and materials from the people who write the tests, not simulations. Copies of official publications by the test makers are included in our course fees and each of our lessons navigates through these actual tests topic by topic.

2. Small Classes

Our groups are limited to a maximum enrollment of 6 students. This means tailored lessons and time for questions.

3. Complete Course

Our course offers a review of each subject as well as test taking strategies specific to the SAT and ACT. In addition to real test questions, students work on vocabulary, reading passages, essay writing, and math every week.

4. 150 Points or Bust*

As with many other companies, we offer a 150 point increase guarantee, but ours is based on your actual PSAT and SAT score so long as you attend your classes and do your homework.

5. Lots of Time Together

In addition to nearly 20 hours of in-class time, students attend review nights and a real, full-length practice test in our office. ACT Preparation adds another half dozen hours.

6. The Team You Already Trust

For students who tutor with us for other subjects, you already know that we're the best, brightest, and most experienced teachers around. We've been successfully preparing students for the SAT since 2003.

*PSAT, SAT, or mini-SAT placement test required before enrollment.

Summer Readiness Programs 2011

Summer is the best time to get a jump start on your classes for the next school year. Our 6-week lesson plans overview the entire first semester so you'll feel confident and ready to master your toughest courses. Schedules are flexible and available one-on-one or in small groups.
